Nursing Resources for Research... on campus and away

Mount Saint Mary College

Prof. Ruta
NUR5000
February 2014
Learning Objectives

• review research resources
• citing sources
• live demo (if time is available)
Research resources

- Books
- Databases of journal articles

EBSCO Information Services
PubMed
Nursing Center
ProQuest
C-terminal
Triahl

Bookshelf
Google
Why not Google?

- Anyone can publish anything on the Internet
- Requires your time to evaluate which results are accurate and valid
- Does not include information found in library databases of **scholarly journals**
Databases are key

• Online collections of journal and newspaper articles, scholarly information from published works

• Searchable

• Often contain full-text articles
The Nursing and Health Library Guide contains links to a wide variety of nursing and health research resources, library and reference materials, database articles, web sites, news links, and information on APA citation style.

The Library of Congress classification section for nursing, medicine and health is R. Also note:

Find Articles Using Databases
CINAHL with Full Text (Cumulative Index to Nursing and Allied Health Literature)
Contains full text for many of the most used journals in the CINAHL index. CINAHL with Full Text is considered the definitive research tool for all areas of nursing and allied health literature. Subject coverage includes nursing, biomedicine, health sciences librarianship, alternative/complementary medicine and consumer health.

Health Reference Center Academic
Provides access to full-text peer-reviewed journals and other periodicals on many medical disciplines, with emphasis on nursing and allied health.

Health Source Nursing/Academic Edition
Provides access to full-text peer-reviewed journals and other periodicals on many medical disciplines, with emphasis on nursing and allied health.

When to cite sources

• When referring to an idea or concept from something you read
• When quoting from something you read or heard
• When you want to give the reader some other places to look for additional information
Quoting others’ words

Paraphrasing others’ ideas or words

Using others’ images or videos

Cite it!
How to Cite Sources

Cite a source whenever you

• Use another person's words, ideas, opinions or theories
• Present facts, statistics, graphs, and drawings that are not common knowledge
• Quote someone's written or spoken words
• Paraphrase someone's written or spoken words
JOURNAL Articles with DOI (Digital Object Identifier)

Continuous Pagination

Author(s). (Date of publication). Title of the article. Title of the Periodical, volume number, Inclusive page numbers. doi:DOI

Reference List Examples:

doi:10.1037/a0013490

Reference Citation In Text Example:

(Magnavita, 2008, p. 265)
JOURNAL Articles without DOI (Digital Object Identifier)

Continuous Pagination

Author(s). (Date of publication). Title of the article. *Title of the Periodical, volume number*, Inclusive page numbers.

Reference List Example:

Reference Citation In Text Example:

(Hanson, 1999)
Citing Your Sources

EasyBib: the bibliography maker

Consult these websites to learn how to create bibliographies according to various style guides.

Review

• Search databases (not Google)
• Where to find nursing resources
• Citing sources with APA citation style
• On to the live demo!!!
Thank you
