T&L ASKS READERS

Chances are you have more software and computing power at your fingertips than do all the astronauts put together. How much do you actually use in school?

0%
None. Classroom is a tech-free zone.

20.83%
We’re almost all computerized. We are truly 21st century.

70.83%
Pretty good and getting better.

8.33%
Hardly any, just the basics.
